Acusafe: Leading the World in Safety Solutions

KAG SAFTEY RAIL

Life Giving and Life Saving

- Minimises slips, accidents, injuries and strains
- Provides reliable and critical assistance in emergency situations
- Offers stability and support for the aged and frail
- Assist staff and patients with confidence boosting grip in wet and slippery areas

First Class Design and Quality

Acusafe prides itself not only on the Unique design of KAG Safety Rail products but also it's un-surpassed quality.

In partnership with Al Hajiry we are now able to deliver the AcuMed Safety Rail range directly to your projects.

Real Safety for the Real World

It's only Fitting for a healthcare environment

Adding to the KAG Safety Rail's hygienic properties, Acusafe has developed a *fully* sealed fixing to prevent the build-up of bacteria.

Unlike competing products, Acusafe's Hygienic fitting solution offers outstanding anti-bacterial properties being 100% sealed with no gaps.

Designed for easy installation and maximum strength, the **world first** fully hygienic fitting is another example of Acusafe's dedication to total safety solutions and the enhancement of safe environments.
